

## The Trippy Therapist is Hiring!

\*This job description is for LICENSED THERAPISTS ONLY! Please email your cover letter and CV to [thetrippytherapist@gmail.com](mailto:thetrippytherapist@gmail.com)

\*\*For **PRE-LICENSED THERAPISTS** looking for **SUPERVISION**, visit [our website to join our waitlist](#) as we will begin offering supervisions in 2024!

**JOB TITLE:** Clinical Mental Health Psychotherapist and Coach

**REQUIREMENTS:** Candidates must be fully licensed to practice in Pennsylvania LPC, LMFT, LCSW, PsyD. Supervisors welcome! Self-Pay Psychiatrists welcome!

60/40 fee split across the board - 60% to the therapist / 40% back into the business

Client cash pay ranges from \$150 - \$225 | Pre-Licensed/Sliding Scale \$80-\$125

Start Dates begin asap and onboarding is ongoing

We will be hiring for our Los Angeles Office in 2024.

*\*\*Again, if you are an interested student or pre-licensed clinician, fill out the form on [our website](#), but we will NOT have availability until 2024.*

The Trippy Therapist (TTT) seeks healers who represent our core principles of bringing creativity, multidisciplinary interests, justice-focused, anti-racist practices, and a desire to grow toward a self-actualized life.

A clinical therapist candidate with confident therapeutic skills and a willingness to continue growing personally, professionally, and, most importantly, multidisciplinary. We want people who geek out over history, identity, culture, psychedelics, bodywork, social justice, relationships, multi and interracial intersections, and creativity. Though not a necessity, a willingness to become licensed in the state of California or another state of your choice is a plus.

At TTT, we provide psychotherapy to adults, teens, couples, groups, and families using evidence-based therapeutic interventions such as but not limited to:

- Liberation Psychology

- Acceptance and Commitment Therapy (ACT)
- EMDR (Eye Movement Desensitization and Reprocessing)
- Somatic
- Psychoanalytic
- Psychodynamic (focused on the unconscious)
- Behavioral (focused on learning new behavior)
- Cognitive (focused on thought)
- Humanistic (focused on achieving potential)
- Integrative
- Interest in Psychedelics more specifically, Psilocybin/Mushrooms and MDMA
- Evidence-Based Experiential Therapy

A deeply rooted understanding of Liberation Psychology and/or a commitment to learning. Ability to work with a diverse population under a liberation lens. Experience or training in trauma-informed care is necessary. Our work is focused on Identity Navigation™ for our clients (training will be provided). This is about a deep understanding of who one is, how we form our identities, and how living in and participating in a colonized country affects us individually and collectively.

TTT is a new practice and you have the option to be a fully virtual clinician if you decide. If you desire a space to work in person, we can talk about this 1:1. Our group practice is based in Pittsburgh, PA, and specializes in providing identity-focused, modern, transparent (mostly) virtual therapy. We are positioning ourselves for a time when psychedelics become accessible in PA, and any therapist looking to provide integrative therapy is able to do so currently.

**The position is full-time (15+ hours ) or part-time (minimum of 10 hours) bases.**

We offer competitive rates, assistance with client referrals, and case consultations with experienced clinicians. We handle all the billing and marketing aspects of the business so that you can focus on what you do best - providing excellent clinical services to your clients. Employee or 1099 positions are available. We do not currently offer health insurance benefits but can offer help navigating ways to get your needs met. Lots of training and support!

Job Types: Full-time, Part-time

Benefits:

- Flexible schedule
- A place to be yourself and practice therapy uniquely
- Free LPC Clinical Supervision
- Work from home
- Support building caseload
- Competitive rates
- No “non-compete” agreement
- Local to Pittsburgh PA, full-time clinicians get a membership to [Direct Care Pittsburgh](#)
